Kinotek è un progetto di sperimentazione elettronica del video che sfrutta le possibilità offerte dalle tecniche digitali di elaborazione in tempo reale delle immagini e le strategie proprie dei linguaggi dei nuovi media; promuove e incoraggia strategie ecologiche nell'uso delle tecnologie attuali ideando e progettando strategie di sinestesia e interazione dinamica tra flussi visuali ed energie cinetiche. Nasce a Roma nel 2001 e ha preso parte a numerosi eventi, festival e performance in Italia e all'estero, con vj set, progetti audio/video e performance. La sue produzioni sono un tentativo di ibridazione tra varie forme espressive contemporanee, dalle estetiche proprie della videoarte alle incursioni nella motion graphic, live processing video, vjing, e sono il frutto di collaborazioni continue con musicisti, sound designers, artisti visivi, graphic designers italiani ed europei. Come vj crew ha avuto residenze nei più prestigiosi club capitolini, ad.es. l'Ex Bocciodromo, il Supper Club, il Goa Club. Le numerosissime partecipazioni a festival comprendono l'ArezzoWave, Dissonanze 2003 (Roma), Contact Europe 2004 (Berlino), Club to Club 2004 (Torino), Ultra Beat Out 2006 (Roma), etc. Dal 2003 e' parte integrante di avatar41 (www.avatar41.net), un collettivo di net.artisti, musicisti, videomaker, grafici, produttori, distributori impegnato nello sviluppo e nella ricerca di nuove forme artistiche contemporanee elettroniche.
